20 December 1989

MEMORANDUM FOR: Chief, Management Staff, DDA

FROM:

[redacted]  
Director of Logistics

SUBJECT: Printing and Photography Group Resource Allocation

1. Pursuant to your request for additional information on resource allocations, the Office of Logistics, Printing and Photography Group (P&PG), expends over 63 percent of their resources in support of intelligence production. P&PG provides intelligence production support to the Directorate of Intelligence (DI), the Directorate of Science and Technology (DS&T), the Directorate of Operations (DO), and the National Intelligence Council (NIC).

2. The support for the DI includes Agency publications, e.g., The Presidents Daily Brief, The National Intelligence Daily, and other current intelligence products. The DS&T products are overt collection, i.e., FBIS publications. The DO support is for covert collection publications. The NIC support includes National Intelligence Estimates, etc.

3. P&PG intelligence production has remained consistent for the past five years. An average of 63 percent of all P&PG resources have been directed to intelligence products and 37 percent to administrative support. FY-89 intelligence production support was 64 percent and administrative support was 36 percent. The attached charts show a comparison of these resources.

4. Any additional information regarding this request can be obtained from [redacted], Chief, Printing and Photography Group. He can be reached on extension [redacted]
